

# LIVING BEYOND THE SURFACE

WHERE DESIGN BECOMES EXPRESSION

NOVAMOBILI

## Il Living 2026 è Qui

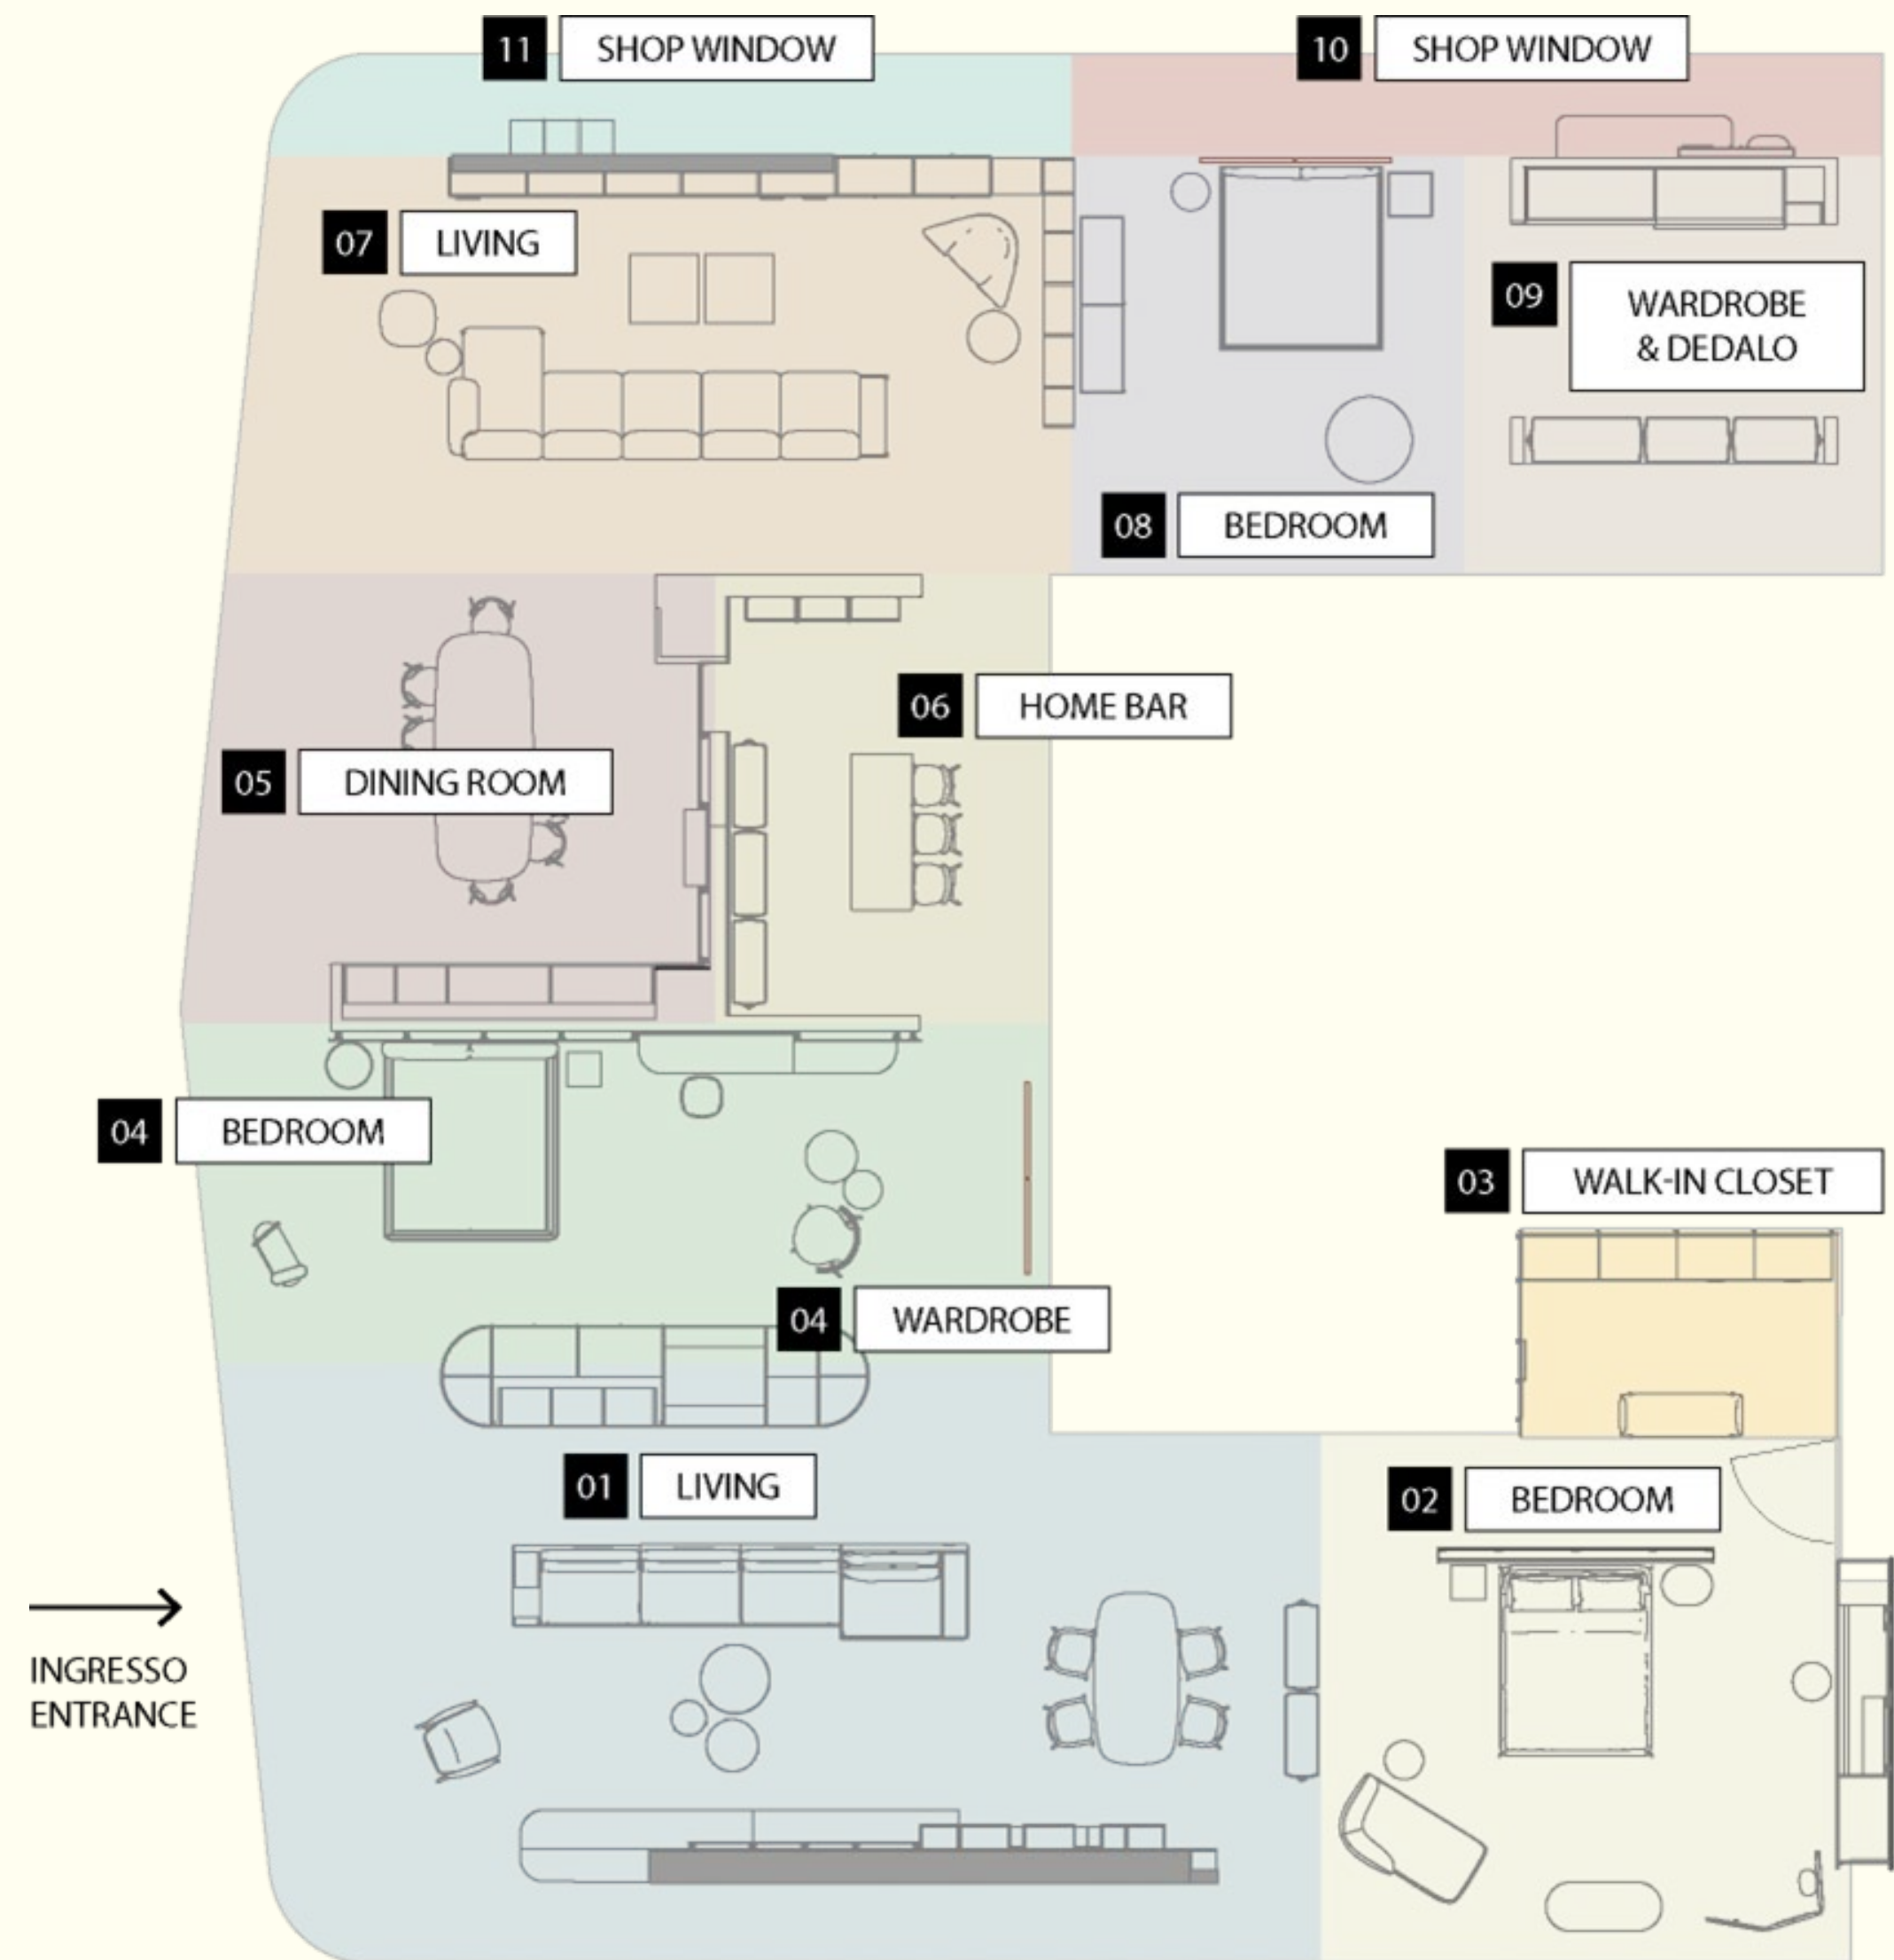

Presentiamo una prospettiva evoluta nel design del living contemporaneo, dove l'attenzione al dettaglio definisce l'esperienza spaziale.

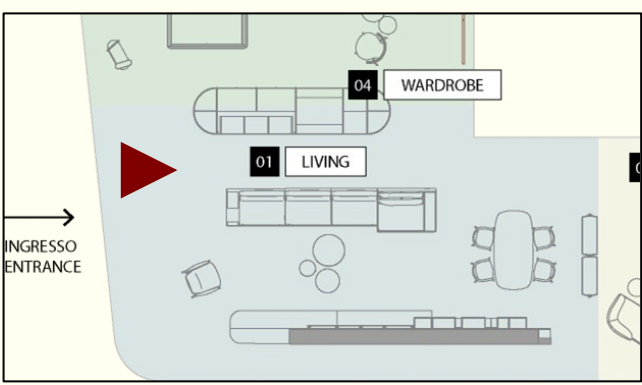

L'utilizzo di legni naturali, caratterizzati da venature ricche e un calore intrinseco, contribuisce a un'estetica raffinata e duratura.

I materiali che evocano il marmo, attraverso processi innovativi, esibiscono una lucentezza sofisticata e riflettono un impegno verso la sostenibilità.

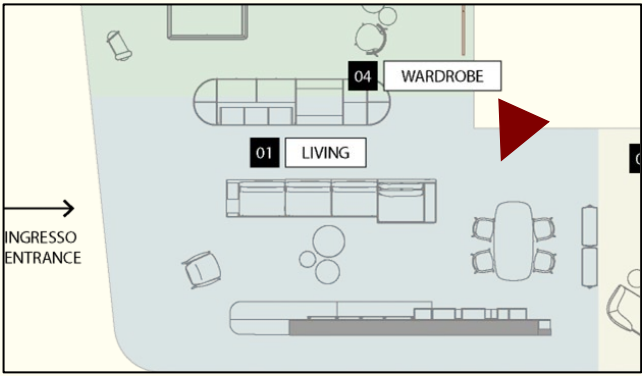

Le pietre naturali, con la loro autenticità materica e texture uniche, conferiscono profondità e carattere agli ambienti, completate da una palette cromatica avvolgente, attentamente selezionata per creare armonie visive e atmosfere accoglienti.

Questi spazi sono progettati per ottimizzare funzionalità e benessere, elevando il concetto di abitare.

MOE Silver Roots

MOM Calacatta Borghini    MOC Super White    MOL Blue Savoie    MOA Verde Lepanto    MOE Silver Roots    MOG Travertino

Eternastone è un materiale composito che si ottiene miscelando sabbia silicea o quarzo puro con resina di poliesteri in un processo di “vibro compattazione sottovuoto”.  
 Queste lastre sono completamente atossiche, antigraffi o, impermeabili e resistono agli urti, alle macchie e agli acidi. La superficie garantisce bellezza dei dettagli, durabilità e facilità di manutenzione.
